

Propositional logic formula in CNF form, ϕ

```
graph TD; A([Propositional logic formula in CNF form,  $\phi$ ]) --> B[Compute minimal correction subsets (MCorrs)]; B --> C[Compute hitting sets of MCorrs]; C --> D([Minimal unsatisfiable subsets (MUnsats)])
```

Compute minimal correction
subsets (MCorrs)

Compute hitting sets of
MCorrs

Minimal unsatisfiable subsets (MUnsats)
